

Hello!

I'm an active member of a walking club in Luxembourg (i.e. having mostly swedish members) and we're looking for additional Scandinavian people (but also other nationalities) to join us. We currently have about 35 members.

We walk every Sunday from 10:00 on; either 6, 12 or 20 kilometer. We sometimes also do "March Gourmandes" (i.e. walking, eating & drinking at 4-5 stops).

It's being organised by the IVV (<https://www.flmp.lu/home>) We walk in the whole country. After the walk we sit together, have a drink and socialize a bit.

As the number of Swedisch expats, returning back to their home country is increasing, we want to find new members.

Are you interested or do you know somebody who could be interested?
